In my study journey, the greatest accomplishment that I obtained was graduating with a multimedia degree. It helps shape my career on another level.

I'm currently working as a freelance UI/UX and graphic designer. I have five years of experience in the creative industry. I am always eager to learn new skills and technologies in order to improve my work performance.

I believe that my experience and integrity are assets that strongly help your business. As an experienced UI/UX designer, I have a broad set of both technical and soft skills to deliver high-quality products.

In my dictionary, there's no word "beautiful" or "ugly", there's only "right" or "wrong".
